

# Zurich Risk Advisor

Helping you assess your risks

At Zurich we have the resources, experience and tools to deliver insights at every stage of your risk management journey. Our consistent approach makes planning for the unexpected easier, helping you implement your organisational risk management strategy effectively and efficiently.

### Assess your risks

Zurich Risk Advisor (formerly known as 'Zurich What If..?') makes risk assessment easier to understand and provides you with insights and recommended practices that enable you to carry out self-assessments. It is a key element of our support at the risk assessment stage.

### Optimize your risk improvement actions

Zurich Risk Advisor is a unique digital platform that provides a suite of self-service risk engineering tools. Using Zurich Risk Advisor can give you powerful insights across your risk value chain that further enable you to get the most from your risk improvement actions and budget, as well as to deliver your Risk Management strategy.

### Empowering your entire risk management strategy

#### With Zurich Risk Advisor you can:

- carry out on-site or remote self-risk assessments, using Zurich's tried-and-tested risk grading methodology
- prioritize risk improvement actions by seeing their impact on your risk grading
- view your assessment results on the My Zurich customer portal\*
- share your self risk assessment reports with key risk stakeholders by email
- access recommended practices and risk insights\* and industry benchmarks.

\*Available during 2016.

# How does it work?

The Zurich Risk Advisor app has two functions **'What If...?'** and **'Self Risk Assessment'**.

**'What If...?'** requires a risk grading completed by a Zurich Risk Engineer. \* Based on the results you can prioritize your risk improvement actions by looking at the effect of each one on the overall risk grading score.

Open the Zurich Risk Advisor app and select **'What If...?'** or **'Self Risk Assessment'**

You can choose **'As Is'** or **'To Be'** scenario

Select the grading

The grading score is displayed on the wheel

The grading per risk factor is chosen with the slider. More information can be found on the **'info'** button. The progress bar shows the results for all risk factors.

You can refresh the data, get more information and run a report of the risk grading

**'Self Risk Assessment'** enables you to assess your own risks using a straightforward question and answer format that's based on the recommended practices and methodology followed by Zurich's Risk Engineers.
